## MURRAY IS NOW A CITY OF UTAH

New Municipality Made Formal Debut Last Evening.

NOISE, MUSIC AND SPEECHES

MAYOR MILLER SWORN IN AND MADE MAIDEN ADDRESS.

URRAY made her debut as a city last evening. Her entrance into municipal society was a little noisy, but the reception given in honor of the event was gloriously informal. And everyone went. In fact, everything went. The noise began about 6 o'clock. No one knows when it let up.

The principal feature of the event was the ceremonies in the opera house. These commenced about 8 o'clock. Long before that hour the city shook with the thunder of the cannons and the air was vibrant with the blare of tin horns. Everyone had a horn of some kind, and all took care to use them. At regular points along State street bonfires blazed and painted the sky a deep. rich red. In the opera house pande-monium reigned. The noise of horas and trumpets shook the roof. Through the lull which came occasionally when the trumpeters stopped to get their breath one could hear the faint echoes of the band, which was trying to make itself heard somewhere down the street.

Murray may wake up with a big head this morning, but no one cares for that. Everyone was happy, and Murray's admirers wanted it known how joyous they felt. The noise

wasn't the fault of Murray. She Gad her part. The exercises in the hall were sandwiched in between the noise and enthusiasm some way. Just how it was done no one really knows, but everything went off according to the programme

Exercises in Opera House.

J. H. Stratton acted as chairman and called the meeting to order. The hall filled early, and those who came late filled early, and those who came late were fortunate if they got a place to stand up. Among those on the stage were the following officers and their families: Mayor C. L. Miller, Councilmen James Gilbert, R. Cal Calhoun, William McCleary, R. E. White, Marshal Michael Mauss, Recorder M. A. Williumson and Justice of the Peace John P. McOmle. Councilman H. F. Sanders was unable to be present, owing to illness in his family. ing to illness in his family.

In calling the meeting to order, Mr. Stratton drew attention to the fact that Murray was now incorporated as

a city.

"It ought to have been years ago,"
said the speaker, "but it is never too

Music by the orchestra followed Mr. Andrews' prayer for divine protection. The approval of the audience was expressed by trumpeting, and when the din of applause had died away, Ray Van Cott was called upon to fill a gap in the programme caused by the fact in the programme caused by the fact that Governor Heber M. Wells could than an inch.

A battery of tin horns sounded their approval. Out of doors a cannon shook the building and boomed out its approval. The South Cottonwood quartette rendered a selection and were stormly encored. There was more music, and then the officers-elect were insic, and then the officers-elect were in-vited to the footlights and D. F. Cahoun administered the oath of office. Mayor Miller then stepped forward and made his address. He said:

It is understood that the declination was accompanied by a threat, but the action itself is regarded as sinister, if, as has been suggested, it is not taken with a view to making a record of the position of the powers in this matter. The situation is regarded here as warranting some concern, though, unless the Washington government is to discredit utterly every statement of the

Level Is Reported to Have Been Stationary For Two Weeks and Prediction Is Made That the Great Saltair Pavilion May Once More Be Surrounded by Water,

A REPORT from Great Salt lake, received yesterday at the weather bureau, shows that for the first time in a year the level of the water has ceased to fall. The reading taken yesterday is exactly the same as it was two weeks ago, that is, three feet and six inches below zero. This cessation in falling is looked upon as an important of the lake conditions may be expected. In fact, it is believed by Director Murdoch that the level will begin to rise now, and that in time the water will be back at its old level. Whether this is simply a temporary cessation in falling or really is a turning point in the condition of the lake will, of course, be a matter of mere conjecture until an other one or two readings are taken and any rise or continued fall is noted. If the stationary level noted yesterday is an indication of a comination of a comination of the lake will of course, be a matter of mere conjecture until an other one or two readings are taken and any rise or continued fall is noted. warranting some concern, though, unless the Washington government is to discredit utterly every statement of the powers in the past two years, whenever the possibility of a division of China came up, it cannot believe that there is an intention to proceed to extremes. It is again suggested that the time is ripe for a reference of this important issue to The Hague tribunal, a consummation devoutly wished for by China and a cause which has commended itself to the Washington government.

The United States, which is interested equally with the other powers in getting as much money as it can in the shape of indemnity, still feels bound by moral law to support the Chinese contention for the slaver basis, looking not only upon the language of the protocols and the Pekin treaty itself, but also having a solicitous regard for Chiand with the alleged responsibility of having given information to the blockading force which led to the capture of the Venezuelan gunboat Miranda at Maracaibo on Dec. 20, Captain Terrill of the steamship Zulia of the Red D line has been suspended from duty.
